

1st Circular of

ICCC2018

43rd International Conference
on Coordination Chemistry

<http://www.iccc2018.jp>

July 30 - August 4, 2018
Sendai, Japan

Welcome

We are pleased to announce that the 43rd International Conference on Coordination Chemistry (ICCC 2018) will be held during July 30 to August 4, 2018 in Sendai, Japan. Since the beginning of ICCC in 1950, it has been a highly active and the largest venue for exchange of the latest knowledge concerning coordination chemistry and related areas among researchers from all over the world. Coordination chemistry has expanded into a huge multidisciplinary research area involving large numbers of chemists, physicists, biologists and medicinal scientists. Japanese societies have been contributing extensively to its development. It is thus our great pleasure to take this third opportunity to organize ICCC in Japan, and to be able to welcome many excellent researchers in all areas of coordination chemistry.

We anticipate fruitful discussions on the latest topics during several plenary, keynote, and invited lectures, contributed talks, and poster presentations. In addition, there will be pre- and post-conferences for young researchers (“Rising Star Symposium”) and senior researchers.

Sendai, the venue for the ICCC 2018, is the largest city in the northeast part of Japan. At the seaside, Matsushima bay is known as one of the most beautiful view point in Japan. There are many famous temples in the mountains, including the world heritage site Hiraizumi. We welcome all of you to visit us in Sendai and look forward to letting you excited with the beauty of northeastern Japan.

Conference Chair: Masahiro Yamashita (Tohoku Univ.)

Conference Topics

The conference will consist of plenary sessions, parallel sessions for keynote lectures, invited lectures and oral contributions, and poster sessions dealing with a variety of topics, including coordination chemistry, inorganic chemistry, catalysis, functional materials, medicinal chemistry, bio-inorganic chemistry, and computational and theoretical chemistry.

Venue

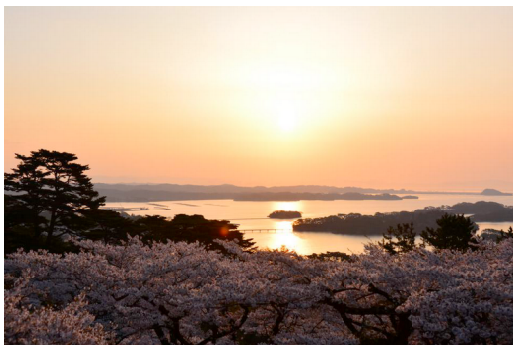

Sendai International Center

<http://www.aobayama.jp/english/>

Sendai International Center, which is located at the center of Sendai city, will be the venue for the conference. Sendai International Center is only 30 minutes away from Sendai Airport by train and subway. Sendai is an academic, political, and economical center of the northeast (Tohoku) region of Japan and easily accessible to all major cities in Japan.

Sendai's seaside area, "Matsushima", is known as one of the three most beautiful scenic spots of Japan. In the mountain side around Sendai, there are many hot springs and old temples, including a UNESCO world heritage site "Hiraizumi - Temples, Gardens and Archaeological Sites Representing the Buddhist Pure Land".

Registration, Abstract Submission and Proceedings

We will do our best to offer attractive fees for active participants and low fees for students and post-docs. The early registration fees are anticipated to be 600 USD for active participants and 300 USD for students and post-docs. Details will be announced on the web in due course. See the website <http://www.iccc2018.jp> for online registrations and abstracts submission.

Important Dates

Detailed schedule will be announced on the web in due course.

December, 2017 Early Registration Begins
Abstract Submission Begins
February 1st, 2018 Abstract Submission Deadline
March 1st, 2018 Early Registration Deadline

Organized by

Science Council of Japan
International Conference on Coordination Chemistry
Organizing Committee of ICC2018

Local Organizing Committee

Chair: Masahiro Yamashita (Tohoku University)
Co-chair: Makoto Fujita (The University of Tokyo)
Secretaries: Hiroshi Kitagawa (Kyoto University)
Ken Sakai (Kyushu University)
Kentaro Tanaka (Nagoya University)

Conference Secretariat

ICCC2018 Secretary of Local Organizing Committee
Coordination Chemistry Laboratory, Department of Chemistry,
Faculty of Science, Kyushu University
